The Snap-John

The **Snap-John** is a portable, collapsible restroom, using a shelter system from **Rigid Tent Systems** that is sturdy and weather and disaster-tested. Assembly is a snap, taking two people just a few hours to complete. The **Snap-John** is environmentally friendly AND aestically pleasing!

Standard Size: 4 x 8 single restroom \$5,377.16

What This Means to YOU

- Made of 2-3/4" SC7 composite
 - Provides R11 insulation
 - 85 lb snow load
 - 125 mph wind load rating
 - Custom interior / exterior colors
 - Sliding aluminum thermo-pane windows
 - Portable and collapsible
 - Available in standard and ADA models
- All SC7 composites are FDA approved. This feature also allows for easy clean-up of the panels- you can hose them off, bleach them, or even use lacquer thinner!
 - The floor, roof and wall panels are insulated for comfort.
 - Weather tested and approved.
 - Disaster tested and safe!
 - The colors are printed under the surface so they will not fade or scratch off.
 - Provides comfort and ventilation.
 - The **Snap-John** can be taken to remote locations and stored in provided crate when not in use.
 - Find what you need with Rigid Tent Systems!

Why You Need the Snap-John

The **Snap-John** has all of the benefits of a permanent structure, insulation, durability, ventilation, but none of the limitations. Drop the **Snap-John** into a remote location. Take the **Snap-John** down when you're done. Plus, the SC7 composite features Greenguard. It resists many chemicals including urine & allows for pressure-washing. If that weren't enough, you can choose exterior color options that not only enhance the appearance of the toilet, but nearly make it disappear!

Call us today to get your Snap-John portable restroom!
